

To: Head Librarian Toronto Public Library

Dear Ms Bowles

I want to lend my voice and that of all the lawyers I know to the chorus of support for your brave stand against the social justice warriors who would silence what they don't want to hear.

Here is the body of an email I have sent to the presidents of Simon Fraser University and the University of British Columbia.

Attention: Andrew Petter, President

Freedom of Speech Sat Nov 2 SFU Downtown – Gender discussion

On behalf of myself and every lawyer I know I congratulate you for being one of the few public institutions not caving to the mob mentality from any ideological faction on any issue that attempts to shut down free speech on university campus.

As past president and vice president of the AMS at UBC in 1968-69 and of my law class of 1970 I am a veteran of the so called Free Speech Movement of that fascinating era. It was hard fought with deaths at Kent State.

The stakes are no less high today than they were then.

Keep the faith!

Carey Linde
