Inter Pipeline Announces \$700 million Medium Term Note Offering

CALGARY, ALBERTA, MAY 28, 2020: Inter Pipeline Ltd. (“Inter Pipeline”) (TSX: IPL) announced today that it has agreed to issue \$700 million of senior unsecured medium-term notes in the Canadian public debt market. The notes will have a fixed interest rate of 4.232% per annum, payable semi-annually, and will mature on June 1, 2027.

The offering is expected to close on June 1, 2020. Inter Pipeline will use the net proceeds of the offering to repay indebtedness under its \$1.5 billion revolving credit facility, series 4 medium term notes due July 2020 and for general corporate purposes.

The notes are being offered through a syndicate of dealers co-led by BMO Capital Markets, CIBC Capital Markets and TD Securities Inc. under Inter Pipeline’s short form base shelf prospectus dated January 15, 2020, and a related prospectus and pricing supplement, each to be dated May 28, 2020.

This news release does not constitute an offer to sell or the solicitation of an offer to buy the notes in any jurisdiction, in which such an offer, solicitation or sale would be unlawful. The notes being offered have not been approved or disapproved by any regulatory authority. The notes have not been and will not be registered under the United States *Securities Act of 1933*, as amended, or any state securities laws, and may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons.

Reader Advisories and Cautionary Statements

Forward-Looking Statements

Certain information contained herein may constitute forward-looking statements and information (collectively, "forward-looking statements") within the meaning of applicable securities legislation that involve known and unknown risks, assumptions, uncertainties and other factors. Forward-looking statements often contain terms such as "may", "will", "should", "anticipate", "expects" and similar expressions. Readers are cautioned not to place undue reliance on forward-looking statements, including, but not limited to, statements regarding the anticipated closing date of the offering and the use of proceeds of the offering. Such statements reflect the current views of Inter Pipeline with respect to future events and are subject to certain risks, uncertainties and assumptions that could cause Inter Pipeline's results to differ materially from those expressed in the forward-looking statements. Factors that could cause actual results to vary from forward-looking information or may affect the operations, performance, development and results of Inter Pipeline's businesses include, among other things, risks and assumptions associated with operations, such as Inter Pipeline's ability to successfully implement its strategic initiatives and achieve the expected benefits therefrom, including the further development of its projects and facilities; assumptions concerning operational reliability; the potential delays of and costs of overruns on construction projects and future expansions of Inter Pipeline's assets; the realization of the anticipated benefits of acquisitions and other projects Inter Pipeline is developing; the timing, financing and completion of acquisitions and other projects Inter Pipeline is developing; risks inherent in Inter Pipeline's Canadian and foreign operations; risks associated with the failure to finalize formal agreements with counterparties in circumstances where letters of intent or similar agreements have been executed and announced by Inter Pipeline; Inter Pipeline's ability to generate sufficient cash flow from operations to meet its current and future obligations; Inter Pipeline's ability to maintain its current level of cash dividends to its shareholders; Inter Pipeline's ability to access sources of debt and equity capital; Inter Pipeline's ability to make capital investments and the amounts of capital investments; Inter Pipeline's ability to maintain its credit ratings; the availability and price of labour, equipment and construction materials; the status, credit risk and continued existence of counterparties having contracts with Inter Pipeline and its affiliates and their performance of such contracts; competitive factors, pricing pressures and supply and demand in the oil and gas transportation, natural gas liquids processing and storage industries; increases in maintenance, operating or financing costs; availability of adequate levels of insurance; difficulty in obtaining necessary regulatory approvals or land access rights and maintenance of support of such approvals and rights; risks of war, hostilities, civil insurrection, instability and political and economic conditions in or affecting countries in which Inter Pipeline and its affiliates operate; severe weather conditions and risks related to climate change; terrorist threats; risks associated with technology; availability of energy commodities; volatility of and assumptions regarding prices of energy commodities; fluctuations in currency and interest rates; changes in laws and regulations, including environmental, regulatory and taxation laws, and the interpretation of such changes to Inter Pipeline's business; the risks associated with existing and potential or threatened future lawsuits and regulatory actions against Inter Pipeline and its affiliates; general economic and business conditions; the effects and impacts of the COVID-19 pandemic as further described below, the extent and duration of which are uncertain at this time, on Inter Pipeline's business and general economic and business conditions and markets, and such other risks and uncertainties described from time to time in Inter Pipeline's reports and filings with the Canadian securities authorities.

In particular and without limitation of the foregoing, the recent outbreak of COVID-19 has had a negative impact on global financial conditions. Inter Pipeline cannot accurately predict the impact COVID-19 will have on its ability to execute its business plans in response to government public health efforts to contain COVID-19 and to obtain financing or third parties' ability to meet their contractual obligations with Inter Pipeline, including due to uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected jurisdictions; and future demand for Inter Pipeline's services. In the event that the prevalence of COVID-19 continues to increase (or fears in respect of COVID-19 continue to increase), governments may increase regulations and restrictions regarding the flow of labour or products, and travel bans, and Inter Pipeline's operations, suppliers and customers, and ability to advance its projects or carry out its ongoing business plan, could be adversely affected. In particular, should any employees or consultants of Inter Pipeline become infected with COVID-19 or similar pathogens, it could have a material negative impact on the Inter Pipeline's operations, prospects, business, financial condition and results of operations.

Further, without limitation of the foregoing, future dividend payments, if any, and the level thereof is uncertain, as Inter Pipeline's dividend policy and the funds available for the payment of dividends from time to time is dependent upon, among other things, available funds from operations, financial requirements for Inter Pipeline's operations and the execution of its growth strategy, fluctuations in working capital and the timing and amount of capital expenditures, debt service requirements and other factors beyond Inter Pipeline's control. The ability of Inter Pipeline to pay

dividends is subject to applicable laws (including the satisfaction of the solvency test contained in applicable corporate legislation) and contractual restrictions contained in the instruments governing its indebtedness, including its credit facilities.

Many of the risk factors and other assumptions related to the forward-looking information are discussed further in Inter Pipeline's most recent MD&A and Annual Information Form, and other documents it files from time to time. You can find these documents by referring to Inter Pipeline's profile on SEDAR (www.sedar.com). As actual results could vary significantly from the forward-looking information. You should not put undue reliance on forward-looking information. Such information, although considered reasonable by Inter Pipeline at the time of preparation, may later prove to be incorrect and actual results may differ materially from those anticipated in the statements made. For this purpose, any statements that are not statements of historical fact are deemed to be forward-looking statements. The forward-looking statements contained in this news release are made as of the date of this document, and, except to the extent required by applicable law, Inter Pipeline assumes no obligation to update or revise forward-looking statements made herein or otherwise, whether as a result of new information, future events, or otherwise. The forward-looking statements contained in this document are expressly qualified by this cautionary note.
