# HealthCheck + HealthCheck Guard

How HealthCheck can help your organization promote safety and avoid risk.

From hospitals to fire stations, to schools and financial institutions, HealthCheck can help any business avoid risk and keep their people safe.

HealthCheck's free companion app, HealthCheck Guard, allows for seamless entry into any participating organization.

Users will complete the HealthCheck screening by answering a few questions about their Health. They will be provided a QR code that represents their results.

All organizations can leverage HealthCheck Guard to scan external visitors' QR Code. This easy process ensures the health and safety of all individuals inside your establishment.

Consumers use the HealthCheck QR code to move seamlessly between places.

Employees use HealthCheck to screen daily and report their results to their employer before work.

Why your organization will love using HealthCheck

- ✓ HealthCheck follows strict privacy laws and doesn't use GPS tracking, keeping your employee data safe
- ✓ HealthCheck reassures users that their co-workers or fellow patrons have taken the time to assess their health
- ✓ HealthCheck strengthens communication between employees and HR

- ✓ HealthCheck saves its users time by streamlining entry into any participating location
- ✓ HealthCheck eliminates the need for written wellness questionnaires, while keeping data secure
- ✓ HealthCheck keeps both organizations and users compliant with State issued guidelines and contact tracing.

Sports, Concerts & Events

Streamline health screening for thousands of guests by scanning HealthCheck's QR codes at the ticket gate or entry points of your event.

Retail, Grocery & Restaurants

Allow patrons to experience your store or dining experience without the intrusion of written symptom surveys or administered temperature checks.

Healthcare, Dental & Eye Care

Patients can proactively share their health status, starting up to 14 days before an elective procedure to secure the safety of your staff and other patients.

Hotels, Hospitality & Amusement Parks

Guests are visiting you to create memories and getaway. Invite them to check their symptoms before arriving at your venue, so they can focus on having fun, without posing a risk to others.

Real Estate & Property Management

Whether tenants are returning to work, or inviting guests to visit them, it's vital to minimize risk as your city reopens. HealthCheck QR scanning allows for a seamless, safe entry while mitigating the need for added security staff or receptionists.

Schools & Universities

Provide peace of mind for teachers, parents, and students with daily wellness checks. HealthCheck QR codes make it easy to scan results at the start of each school day and return to a more efficient classroom setting.
