This announcement is made pursuant to Rule 13.10B of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Datang International Power Generation Co., Ltd. (the “**Company**”) announces that, according to the Company’s preliminary statistics, as of 30 September 2020, the total power generation of the Company and its subsidiaries amounted to approximately 200.6796 billion kWh, representing an increase of approximately 2.30% on a year-on-year basis, and total on-grid power generation amounted to approximately 188.0351 billion kWh, representing an increase of approximately 1.49% on a year-on-year basis.

The major reasons for the increase in power generation of the Company are as follows:

1. The national overall power consumption increased year-on-year as the domestic epidemic has been effectively controlled;
2. The increase of new power generating units in parts of the areas where the Company is located; and
3. Owing to the continuous enhancement of new energy consumption in parts of the areas where the Company is located, the power curtailment situation was improved significantly.

As of 30 September 2020, the average on-grid tariff of the Company was RMB363.87 per MWh (inclusive of tax).

Details of the power generation of the Company and its subsidiaries are set out as below:
