

Andrew Bulpin

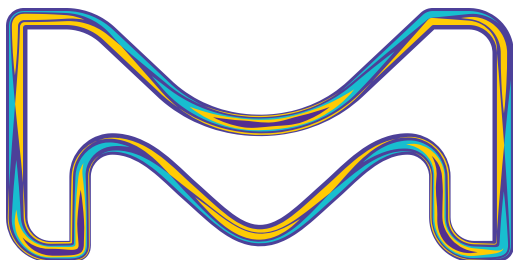

Head of Process Solutions

Andrew Bulpin is head of the newly defined Process Solutions business unit at the Life Science business of Merck, KGaA, Darmstadt, Germany. Under his leadership, he has grown the business unit to become one of the company's Big 3 growth drivers.

Previously, Bulpin was Head of the Process Solutions Strategic Marketing & Innovation team. Prior to that, he served as Global Head of Sales for the Pharmaceutical Chemical Solutions business.

Bulpin joined the company in 2006 as Vice President of the Upstream Processing business and later assumed leadership of the Services and Solutions business. Prior to joining the company, he worked at Serologicals Corporation in a number of sales and marketing roles, both in the U.S. and Europe.

Bulpin holds a Doctorate in organic chemistry from the Université de Caen, France, a Master's of Business Administration degree from the University of Strathclyde, Scotland and a bachelor's degree from the University of Sussex, England. He also worked as a postdoctoral research fellow at the Australian National University, Australia.

MilliporeSigma is the U.S. and Canada Life Science business of Merck KGaA, Darmstadt, Germany.
