Dr Sangha has over 20 years of experience in capital markets, primarily in an advisory role in financing, raising capital, strategic assessment of assets and management, and business development. His area of focus is biotechnology, mining and more recently blockchain/ digital currency. Dr Sangha has extensive experience in public company governance and compliance and finance. He runs a successful Private Fund/Family Office and has a tremendous track record in assessing and developing, financing early stage companies in the biotechnology and mining sectors. He is currently one of the largest individual shareholders of Sernova and has raised capital and supported Sernova since 2015.

Dr Sangha is registered with Sedi and has an updated PIF in accordance with regulatory agencies and exchanges for publicly traded companies in Canada and the United States.

Dr Sangha has had many discussions with Philip Toleikis on the science and technology for Sernova's pouch. Dr Sangha has experience in dealing with pharma/biotechnology companies dealing with FDA for IND and clinical trials. Dr Sangha has also discussed capital markets and financing with Philip Toleikis on a number of occasions. He personally helped raise over \$3 million in 2020 in a few hours for Sernova with National Bank brokerage. During this raise, the private placement was at a premium to the current share price and they did not take any commission. He provided an in-depth report to IIROC about the blatant manipulation and conflict of interest of parties in simultaneously shorting and providing financing in the form of private placement in the case of Sernova.
