

GO PRIMERO

ADVANCED HEAD PROTECTION MADE EASY

TECHNICAL DETAILS

The new Primero series is the result of the holistic KASK commitment to safety, comfort and design.

Safety is ensured thanks to a **High Density Polypropylene external shell** that decreases the helmet weight while increasing its protective abilities – great impact resistance and high penetration protection. The **High Density Expanded Polystyrene inner shell** guarantees all-around high impact energy absorption and improved comfort.

Exceptional wearer comfort is provided by an inner padding made of a **quick-drying fabric with moisture-wicking technology** that accelerates the dispersion of sweat to the surface of the helmet padding for keeping workers cool and dry. It can be easily removed or replaced via a patented **Click-In System**.

Moreover, Primero is designed with internal channels for enhanced breathability and with **14 air intakes** shaped to prevent debris entry. In addition, the **Ergo Fit System** allows for an easy and secure fit by turning the large diameter dial. The system moves up and down to adapt to a range of head shapes and the ergonomically shaped wings cradle the back of the neck for a secure fit. An advanced chinstrap with 5 adjustment points ensures a personalized fit and accommodates wider head sizes and adapts to earmuff use.

As with all KASK helmets, the Primero features a number of additional design elements that enhance the wearer experience. It is designed with integrated slots for easy mounting of KASK eye, face and hearing protection accessories and with front attachment point for advanced customization and easy integration of accessories such as badge holders and headlamps.

The Primero series is compliant with the European safety standards for industrial helmets EN 397, EN 50365 and standard for mountaineers helmets EN 12492.

HEAD PROTECTION
MADE EASY.

PRIMERO AIR CE

MATERIAL

EXTERNAL SHELL:
HD Polypropylene

INTERNAL SHELL:
HD Expanded Polystyrene

HEADBAND:
Soft PA Nylon

SIZE

Universal-adjustable
from 52 to 63 cm

WEIGHT

460 g

STANDARD

EN 397
EN 50365 (Class 0) 
Protection against top, front, rear
and side impacts in conformity
with EN 12492
Clauses 4.2.1 shock energy
absorption capacity
Clause 4.2.2 penetration
EN 397 additional tests:
-30°C / LD / MM

TEMPERATURE OF USE

-30°C / +50°C

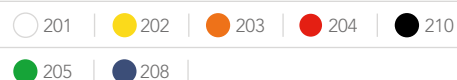

CATEGORY

III

WHE00113

FEATURES

- **VENTILATION CHANNELS** 14 air intakes shaped for preventing debris entry.
- **ERGO FIT SYSTEM** Moves up and down and cradles back of neck for a secure fit.
- **2DRY LINER** Moisture-wicking fabric technology for all-day comfort.
- **CLICK-IN SYSTEM** Attachment system that lets padding easily snap in and out.
- **ADVANCED LITE CHINSTRAP** 5 adjustment points and EN color-coded fastener.
- **RING TO HOOK** Chinstrap loop that securely attaches helmet to a harness.
- **EASY CLICK SYSTEM** Integrated slots for eye and face protection. Adapters required.
- **EARMUFF ATTACHMENT SLOTS** 30mm EURO slots for attaching earmuffs.
- **REPLACEABLE LAMP CLIPS** 4 removable nylon lamp attachment clips.
