

## Pierre S. Freeman—1985 Entrapped in AMORC since 1981: 4 painful years

I have been a member of AMORC since 1981; I have been living in Miami since January 1st, 1983. So far, I have had two dishwasher jobs—one in Coconut Grove and one in Coral Gables in Miami. Still without a green card to allow me to go to college, I am driving a taxi and attending a Technical high school to get a Truck Driving License as I am waiting for the Masters of AMORC to bestow upon me permission to obtain my green card. One day coming from my driving school, I didn't have \$0.75 for the bus and had not eaten anything that day. I was famished after walking 14 miles (4 hours); when I got by a McDonald's, I hastily dug into the trash nearby to find something to bite. At that time, I thought I was being tested by AMORC. AMORC teaches members that there will be severe testing before they can achieve health, wealth, and anything they desire.

### H. Spencer Lewis (Deceased Emperor)

From the invisible world, I can see you are following our monographs, and if you pass all our tests without complaining, you will be given permission to fulfill all your heart's desires, and health, wealth, and prosperity will be yours.

### Ralph Lewis (Current Emperor)

The Egregore reports to me that you are on the right path with our centuries-valid teachings. Accept your tests without questioning our wisdom, and wealth and prosperity will soon be yours.

### Christian Bernard (Current French Grand Master)

As Grand Master of the French Jurisdiction, I have reviewed your progress towards enlightenment. Once you reach the Summum Bonum, Health, Wealth, Prosperity, and all your heart desires will be fulfilled.

### Pierre S. Freeman

I know I am being tested as AMORC teaches me in the monographs. I know the visible and the invisible Masters are observing my every move. If I do not complain, they will permit me to earn a green card to attend college and achieve financial freedom.
