Chicago, IL - The Revelation Machinery 2023 Manufacturing Scholarship is now open to all current or incoming college students enrolled full-time in manufacturing or engineering programs.

[Revelation Machinery](#) is a used CNC, fabrication, and process equipment dealer offering a large and regularly updated inventory of machines. Founded with a mission to make machinery buying and selling easier and more transparent through a focus on long-term partnerships rather than a single transaction, Revelation Machinery has grown into a nationwide business with the added personal service of a local partner. To further that mission, Revelation Machinery is proud to encourage and invest in the next generation of manufacturing and engineering students with a [newly-launched scholarship program](#).

The Revelation Machinery Scholarship Program is offering (1) \$4,000 scholarship to high school graduates entering a two-year or four-year community college or four-year school as a freshman as well as students currently enrolled in a two-year or four-year community college or four-year school (including continuing education for adults and apprentices) who are pursuing a degree in manufacturing or engineering. This is an opportunity for students in manufacturing, engineering, or a related field to receive financial assistance for expenses related to their education.

"We believe in investing in the future of manufacturing and engineering students," said Tanner Arnold, CEO and President of Revelation Machinery. "With this scholarship, we want to help empower the next generation of manufacturing professionals." Named one of the top 10 manufacturing companies on the Inc. 5000 list, Revelation Machinery has been recognized as one of the fastest-growing private companies in the U.S. in [both 2021 and 2022](#).

Applicants will be required to write an essay, sharing why they're passionate about pursuing an education in manufacturing, their future goals, and how this scholarship will help them make a difference in the manufacturing industry.

To be eligible for the scholarship, applicants must submit an official transcript, have a GPA between 2.0 and 4.0, and submit the required 250 word essay via [online form](#). Applicants must be enrolled full-time, actively pursuing a certification, certificate, associates, bachelors or masters degree in manufacturing, engineering or similar fields.

The submission deadline is Wednesday, December 31st, 2023. Please visit <https://revelationmachinery.com/manufacturing-scholarship> to apply, find information regarding [eligibility requirements](#) and details on how to submit your application materials.
