We Create Great Looking Products Engineered & Manufactured with **Excellence**

EVERMARK

STAIR PARTS • DOORS & JAMBS • HARDWARE

WHO WE ARE

EVERMARK, formerly LNL Building Products, was founded by George Liu and his father Marlon, in 1993. George became a U.S. citizen as a young boy, went on to graduate from Georgia Tech, and used the knowledge gleaned there to grow the company. Over the last 30+ years, George has steered EVERMARK to become a highly-regarded and successful stair parts, doors and jambs, and hinge and hardware, manufacturer and distributor.

Today, EVERMARK owns and operates several factories in the United States and Asia, along with multiple warehouses stateside. Controlling the manufacturing process allows us to ensure quality and consistency, while delivering the greatest value, durability, and service to our customers.

With EVERMARK you can rest assured... no matter which of our products you choose, you're making a smart decision. We make it our mission to always meet and exceed your expectations.

4500+
EVERMARK

WHAT WE DO

STAIR PARTS

From newels and balusters to rails and treads, our stair parts make a statement. Enjoy the confidence that comes from knowing you're getting the highest quality products and top-tier service.

DOORS, FRAME & JAMBS

Elevate every entry, inside and out. Evermark can manufacture interior and exterior doors to your specifications, with or without glass, in a vast range of sizes.

HINGES & HARDWARE

When security & satisfaction hinge on good hardware, we have you covered.

EVERSTRIKE®

Replace or reinforce a door jamb with this hidden strike plate installed into the jamb leg for added strength and security.

EVERJAMB®

An affordable door jamb with a composite bottom for protection where moisture, rot, and mold threaten traditional jambs.
