# INTELLIWORX
## Workforce Management
### Healthcare

**Working with healthcare industry experts, we've developed a workforce management platform especially for small and rural systems**

## The Problem

Managing the recruiting, hiring, onboarding, and credentialing of new employees requires time, effort, and expense. Identifying, engaging, and processing qualified candidates and completing and maintaining credential requirements is challenging without access to a comprehensive solution.

## The Solution

**Intelliworx Healthcare Workforce Management** helps you efficiently manage candidates through the complete life cycle of recruiting and onboarding, with initial and continuous credential management. Experience increased time-savings. Allow new providers to start seeing patients and generating revenue faster.

## Key Features and Benefits

▶ Manage the entire Hospital Position lifecycle without the complexity and cost tied to large enterprise systems.

▶ Mobile first platform. 21st Century IDEA and Section 508 compliant. Fully accessible. Simple, seamless, and secure.

▶ Access everything through an easy-to-use dashboard, designed to be efficient and user-friendly for Candidates, Supervisors, Senior Leadership, and other Stakeholders.

▶ Provides centralized location for all internal offices to store documents digitally.

▶ Access the tools needed to reduce recruiting time and minimize reliance on third party recruiters to find physicians.

▶ Track candidates as they move through the hiring process. Minimizes the necessity for time-consuming follow up.

▶ Increases timeliness and efficiency of onboarding.

▶ Everything necessary to initiate and maintain the credentialing process is collected, avoiding any gaps in the provision of medical care services due to lapsed licensure.

▶ Prioritized commitment to security and data protection.
