Amerisure Insurance Named Among Best Places to Work in IT by Foundry's Computerworld

Farmington Hills, Mich., November 27, 2023 — Amerisure is proud to be named in Computerworld's Best Places to Work in IT program for the second consecutive year. The award recognizes top work environments for technology professionals that also provide great benefits and compensation packages. Amerisure ranked sixth on the list in its category of small-sized organizations.

"We're excited Amerisure has once again been named a Best Place to Work in IT by Computerworld," said Amjed Al-Zoubi, Amerisure's Chief Information Officer.

"This recognition is a testament to our ability to provide a best-in-class experience for our employees, agency partners and policyholders. Our digital transformation journey is essential in helping us remain at the forefront of the insurance industry."

Computerworld also awarded Amerisure with four top-ten recognitions among the small business category — the top spot for diversity, sixth for career development, seventh for benefits, and ninth-place for IT growth. Results are based on a questionnaire regarding company offerings and vetted by a panel of industry experts.

"Technology is playing an increasingly important role in modern business. IT professionals continue to benefit from this trend, as this year's winning organizations increase staffing and offer a variety of pathways to upskill, reskill, and diversify their teams," said Rob O'Regan, Global Director, Content Strategy at Foundry. "These companies provide a model for IT and HR leaders who are looking for new ways to attract, engage, and retain talent in an increasingly competitive IT environment."

Amerisure is a frequent recipient of workplace awards. Earlier this year, the company was named among the Best and Brightest Companies to Work For® in the Nation, Metro Detroit, and Atlanta; and was recognized by Business Insurance as a Best Place to Work in Insurance™.

"We're proud to receive our fifth workplace award for 2023," said Erin Buddie, Chief Human Resources Officer at Amerisure. "There are many factors that combine in creating a healthy culture where all employees can be their authentic selves at work. Everything brought to the table by our employees works together as an essential component in why we're able to receive these awards."

The winning organizations will be included in coverage on Computerworld.com along with results from the Best Places to Work in IT survey. To learn more and see the full rankings for 2024, [click here](#).
