*Maureen's artistic and talented life spans 60 years. Her high hopes and enthusiastic ambition for life has yielded a woman who is a visual artist, philanthropist, memoirist, singer, former actress & model, and now a proud gallery owner. Her paintings are inspiring and executed in her unique emotive style. Her appeal is evident from numerous domestic and international exhibitions and collectors.*

*Maureen's worldly insights from her travels with her husband are imbued in her paintings. Keen to share these experiences with their home community of California, this gallery expresses their civic efforts to foster the arts and to provide more accessibility to her works.*

Arts - Life - Hope
