

About sensiBel

sensiBel is a Norwegian deep-tech company developing next generation MEMS microphones. The sensiBel team consists of MEMS, electronics, optics and acoustics technology experts as well as an experienced business and leadership team. sensiBel's goal is to bring high quality MEMS microphones into wide range of products world-wide and set a new standard in miniature microphone performance.

About the Sennheiser Group

Building the future of audio and creating unique sound experiences for our customers - this is the aspiration that unites the employees of the Sennheiser Group worldwide. The independent family-owned company Sennheiser was founded in 1945. Today, it is managed in the third generation by Dr. Andreas Sennheiser and Daniel Sennheiser and is one of the leading manufacturers in the field of professional audio technology.
