***ForConstructionPros.com* Accepts Submissions for the 2024 Best Contractors to Work for in Construction**

The recognition program, Best Contractors to Work for in Construction brought to you by ForConstructionPros.com and its affiliated construction brands, is accepting submissions for its 2024 program, which aims to recognize the companies that have successfully implemented standards that provide a positive workplace environment.

Fort Atkinson, Wis. (March 5, 2024) – *ForConstructionPros.com*, the largest construction network in North America, has opened submissions for the **2024 Best Contractors to Work for in Construction** award – a research-driven program from the [Best Companies Group](#) that examines a company’s best practices, programs, and benefits, while surveying employees for their perspective.

The recognition program, brought to you by *IRONMARKETS*, *ForConstructionPros.com* and its affiliated construction brands (*Equipment Today*, *Asphalt Contractor*, *Concrete Contractor*, and *Pavement Maintenance & Reconstruction*), aims to honor the top construction companies that provide a positive workplace environment, competitive compensation, training, and opportunities for advancement.

To be considered, employers need to register, and employees need to complete an in-depth survey, providing feedback about their employer. Eligible construction companies must have 15 full- or part-time employees working in the U.S., and the company’s primary business activity has to be either general building construction, earthmoving, paving, concrete or specialty and trades, such as underground, utility, electrical, HVAC, demolition and others.

“It is our honor to bring this prestigious recognition to the construction industry,” says Amy Schwandt, Chief Revenue Officer, IRONMARKETS. “There are contractors small and large that do a great deal to ensure their companies, employees and business culture sets them apart from the competition, while creating a fulfilling workplace not only for their internal staff, but also in the quality product and service they provide to their customers. Implementing newfound technologies, innovation and the highest level of employee and customer satisfaction are just a few of the many qualities these companies portray in their value proposition day in and day out.

“Being recognized as a *Best Contractor to Work for in Construction* means that the selected companies will have successfully implemented and regularly practiced many high-quality standards and credentials that elevate them to best in class in this industry.”

Entry forms and surveys will be handled by the *Best Companies Group*, which analyzes the data and creates an insights report based on the results.

Employers must register their company by July 19, 2024 for a chance to be acknowledged as one of the 2024 Best Contractors to Work for in Construction award winners through a free online application process. Selected companies will gain industry recognition and will have a unique advantage in attracting candidates.
