## **ARCH® Cutting Tools Acquires Gallatin, Tennessee Based Company, BMWG, LLC**

ARCH Cutting Tools Corp. (“ARCH”) announces the acquisition of BMWG, LLC, a manufacturer of indexable and solid round tools, located in Gallatin, Tennessee. The new acquisition will join ARCH Cutting Tools, further solidifying ARCH as an industry leader in precision custom tooling.

With its state-of-the-art facility and equipment, BMWG specializes in designing and manufacturing custom indexable and solid carbide round tools for a diverse and ever-growing customer base. Since its inception in 1995, BMWG has focused on providing unparalleled service and nurturing customer partnerships. This, in combination with its innovative products, has resulted in an exceptionally strong regional footprint, specifically in the medical industry.

“I am proud to welcome the team at BMWG into the ARCH family,” said Jeff Cederstrom, Divisional President of ARCH Cutting Tools. “BMWG is an exceptionally well-run facility with a diverse customer base, including a growing orthopedic and medical footprint. We are also excited to have an expanded geographic reach to serve this growing region.”

“I am excited to welcome the BMWG team to the ARCH organization,” added Eli Crotzer, President and CEO of ARCH Global Holdings. “The BMWG facility and culture were differentiating features that attracted us to the business.”

“We are very excited to join the ARCH organization,” said Travis Wright, Owner of BMWG, LLC, who will continue to serve as President of the location after the acquisition. “Everyone we have met from ARCH has been very positive and excited about the future of ARCH Cutting Tools. We see that the core values of ARCH are aligned with our own, and we know this move will ensure the continued growth of our facility and the expansion of our capabilities.”

### **About ARCH® Cutting Tools**

Founded in 2011, ARCH Cutting Tools Corp. ("ARCH") is an American manufacturer of solid round and indexable metal cutting tools for the aerospace, defense, firearms, automotive, transportation, medical, and power generation industries. Headquartered in Bloomfield Hills, Michigan, ARCH Cutting Tools is comprised of 16 manufacturing facilities, with over 100 years of collective engineering experience. While 4 of these facilities produce over 27,000 stocked, standard SKUs found in The Collection catalog, all 16 design innovative custom solutions that improve multiple dimensions of the end-user manufacturing process.
