**Seniors Housing and Care M&A Activity  
Reaches 147 Deals in Q1:24,  
According to Acquisition Data from LevinPro LTC.**

**NEW CANAAN, CT – April 9, 2024** – The number of publicly announced seniors housing and care acquisitions in the first quarter of 2024 reached 147 deals, based on new acquisition data from LevinPro LTC. This represents a 0.7% decrease from the 148 transactions disclosed in the fourth quarter of 2023, but a 34% increase from the 110 deals in Q1:23. Additionally, the \$3.51 billion spent on Q1:24 transactions fell by 11% from the \$3.95 billion spent on Q4:23 transactions and rose by 150% from the \$1.4 billion spent in the year-ago first quarter, based on disclosed prices.

"Deals are still getting done at a near-record pace, despite the numerous problems stemming from the capital markets," stated Ben Swett, Managing Editor of *The SeniorCare Investor*. "Many of the transactions that have closed were prompted by looming debt maturities, with owners choosing to sell now rather than refinance at a higher interest rate and at lower leverage."

The 147 transactions recorded in Q1:24 represent the third highest deal total for any quarter, behind Q2:22, when 149 deals were announced, and Q4:23, when 148 deals were announced. When annualized, the activity would set an annual record by about 30 deals, at 588 transactions. To read more on this, check out "Q1:24 M&A Activity Nears 150 Deals" in April's issue of *The SeniorCare Investor*, a complimentary copy of which can be found [here](#).

Assisted living deals made up the plurality of Q1:24 deals, accounting for 43%, followed by skilled nursing at 39%. Independent living deals comprised approximately 8% of the quarter's total, CCRCs took a 5% share and affordable senior apartments and active adult deals accounted for 3% and 2%, respectively. Also, there were just under 325 properties involved in Q1:24's

deals for a property-per-deal ratio of 2.2, which is lower than Q1:23's property-per-deal ratio of 2.7.

“For the most part, the transactions announced in the last year have been smaller and featured value-add properties being sold at a steep discount,” added Swett. “Until interest rates fall meaningfully, that dynamic is unlikely to change soon.”

All long-term care M&A deals dating back to 1993 can be accessed on the [LevinPro](#) database and can be purchased via a site license. In addition, annual results of the seniors housing and care acquisition markets will be published this year in the 29<sup>th</sup> Edition of *The Senior Care Acquisition Report*.
