

Fuel for Good

2023 Community Impact At-a-Glance

Nicor Gas has been serving Illinois customers for more than 60 years, and we believe that part of our corporate responsibility is to give back. The 2023 Nicor Gas Community Impact Report reflects our commitment to supporting non-profit organizations and enhancing the quality of life for our 2.3 million customers.

“Philanthropy and volunteerism are crucial to our organization, and our partnerships truly make a difference.”

9,220 Hours of Programming

42K Students and Program Participants

Partners include: Habitat for Humanity, Junior Achievement of Chicago, National Energy Education Development Project, Quad County Urban League

Volunteerism and Employee Giving

Nicor Gas employees are deeply integrated into the communities we serve. Our volunteers have contributed by beautifying shelters, building homes, sorting food, and preparing care kits for those in need. Plus, each year, Nicor Gas runs an employee giving campaign supporting United Way and affiliated nonprofit organizations.

We are dedicated to positively impacting our communities and believe in the importance of giving back. Here are a few of the more than 30 non-profits, fire departments, schools and other organizations that employees supported in 2023.
