Continuous Cybersecurity Compliance

Our Mission

Defending the world from cybersecurity threats through continuous compliance.

Our monthly engagement model delivers a robust cybersecurity program that allows you to meet compliance frameworks, including SOC 2, HIPAA, and CMMC. Once compliance certification is achieved, we constantly enhance your security program to keep up with the evolving threat landscape and compliance standards. Our compliance automation toolset gives you complete visibility into your compliance status while saving you time and money.

Who we serve:

Small & Medium Enterprise:

We are the security and compliance experts, so you don't have to be. Our continuous compliance service is crafted to meet the needs and budgets of startups and small to medium enterprises.

Managed Service Providers:

We are a team of managed service experts. We've founded, managed, grown, and sold MSPs. We focus on achieving compliance for your managed service offering so you can focus on expanding your customer base.

SaaS:

SOC 2 compliance is a must for many SaaS providers. We leverage industry-relevant security controls to achieve compliance for your service with tools built in the cloud to drive automation.

OUR MONTHLY
Service offering includes:

Continuous Cybersecurity Compliance:

Our team of CISSP and CISA-certified security experts will develop and execute a cybersecurity plan to meet compliance frameworks. Our continuous compliance service includes:

o Gap Analysis
o Risk Assessment
o Policy Generation and Implementation
o Business Continuity Planning
o Remediation
o Certification Assistance

Managed Compliance Automation:

Automate your compliance journey with a single platform for all your frameworks that allows you to continuously monitor your compliance status.

Managed Security Awareness and Phishing:

Security awareness training modules and AI-driven phishing tests with reporting and progress monitoring.

vCISO:

Our experienced and certified vCISO's work with your team through every phase of the compliance journey to ensure your security program is tailored to your unique business requirements.
