DESIGNED FOR YOU

Step into the future of burnishing with the SXi from ONYX. Imagine a high-performance machine crafted to deliver the pristine, lustrous gloss your clients demand—without the noise and fumes of propane or the underwhelming results of older electric models. Powered by advanced lithium technology, the SXi combines unmatched power with extended runtime, allowing you to cover large areas on a single charge while enjoying the freedom, convenience, and immense productivity gains of cordless operation—saving significant time and labor costs for your business. You'll be blown away by the SXi's whisper-quiet performance, smooth control, and patented dust collection system, which captures fine particles and improves indoor air quality for your clients. More than just a machine, the SXi is a tool designed specifically to elevate your business to new heights and help you achieve unmatched success—one beautiful floor at a time.
