

Roam

The Carbonation Connector™

Carbonate directly inside your Hydro Flask®.

- **Compatible with the countertop soda maker you already own**, including Sodastream®, Aarke®, and Phillips®.
- **Easily fits the bottle you already own with SafeThreads™ technology**, including Hydro Flask®, Simple Modern®, Takeya®, and other leading wide mouth bottles.

Carbonation On The Go Is As Easy As *One, Two, Three...*

1

Fill your water bottle.

2

Screw on the Carbonation Connector.

3

Carbonate in your soda maker.
