

THE FIRST AND ONLY PROGRAM

that helps meet employee demand for high-cost GLP-1 weight loss medications.

44%

of employees would change jobs to gain GLP-1 coverage

1 in 5

large companies currently cover GLP-1 weight loss medications

200

comorbidities are associated with obesity ranging from cancer to heart disease, impacting overall employee health

The LivLite Weight Loss Plan:

Bridges the gap for employers contemplating all-or-nothing coverage for these drugs

Limits the plan's financial exposure to expensive GLP-1s

Sets predictable cost sharing for plan members

Doesn't require a benefit plan change

“

Until now, employers have had limited choices for managing the financial impact of weight-loss medications.
