

GRAX and CapStorm unite
to become the leading Salesforce
data management platform

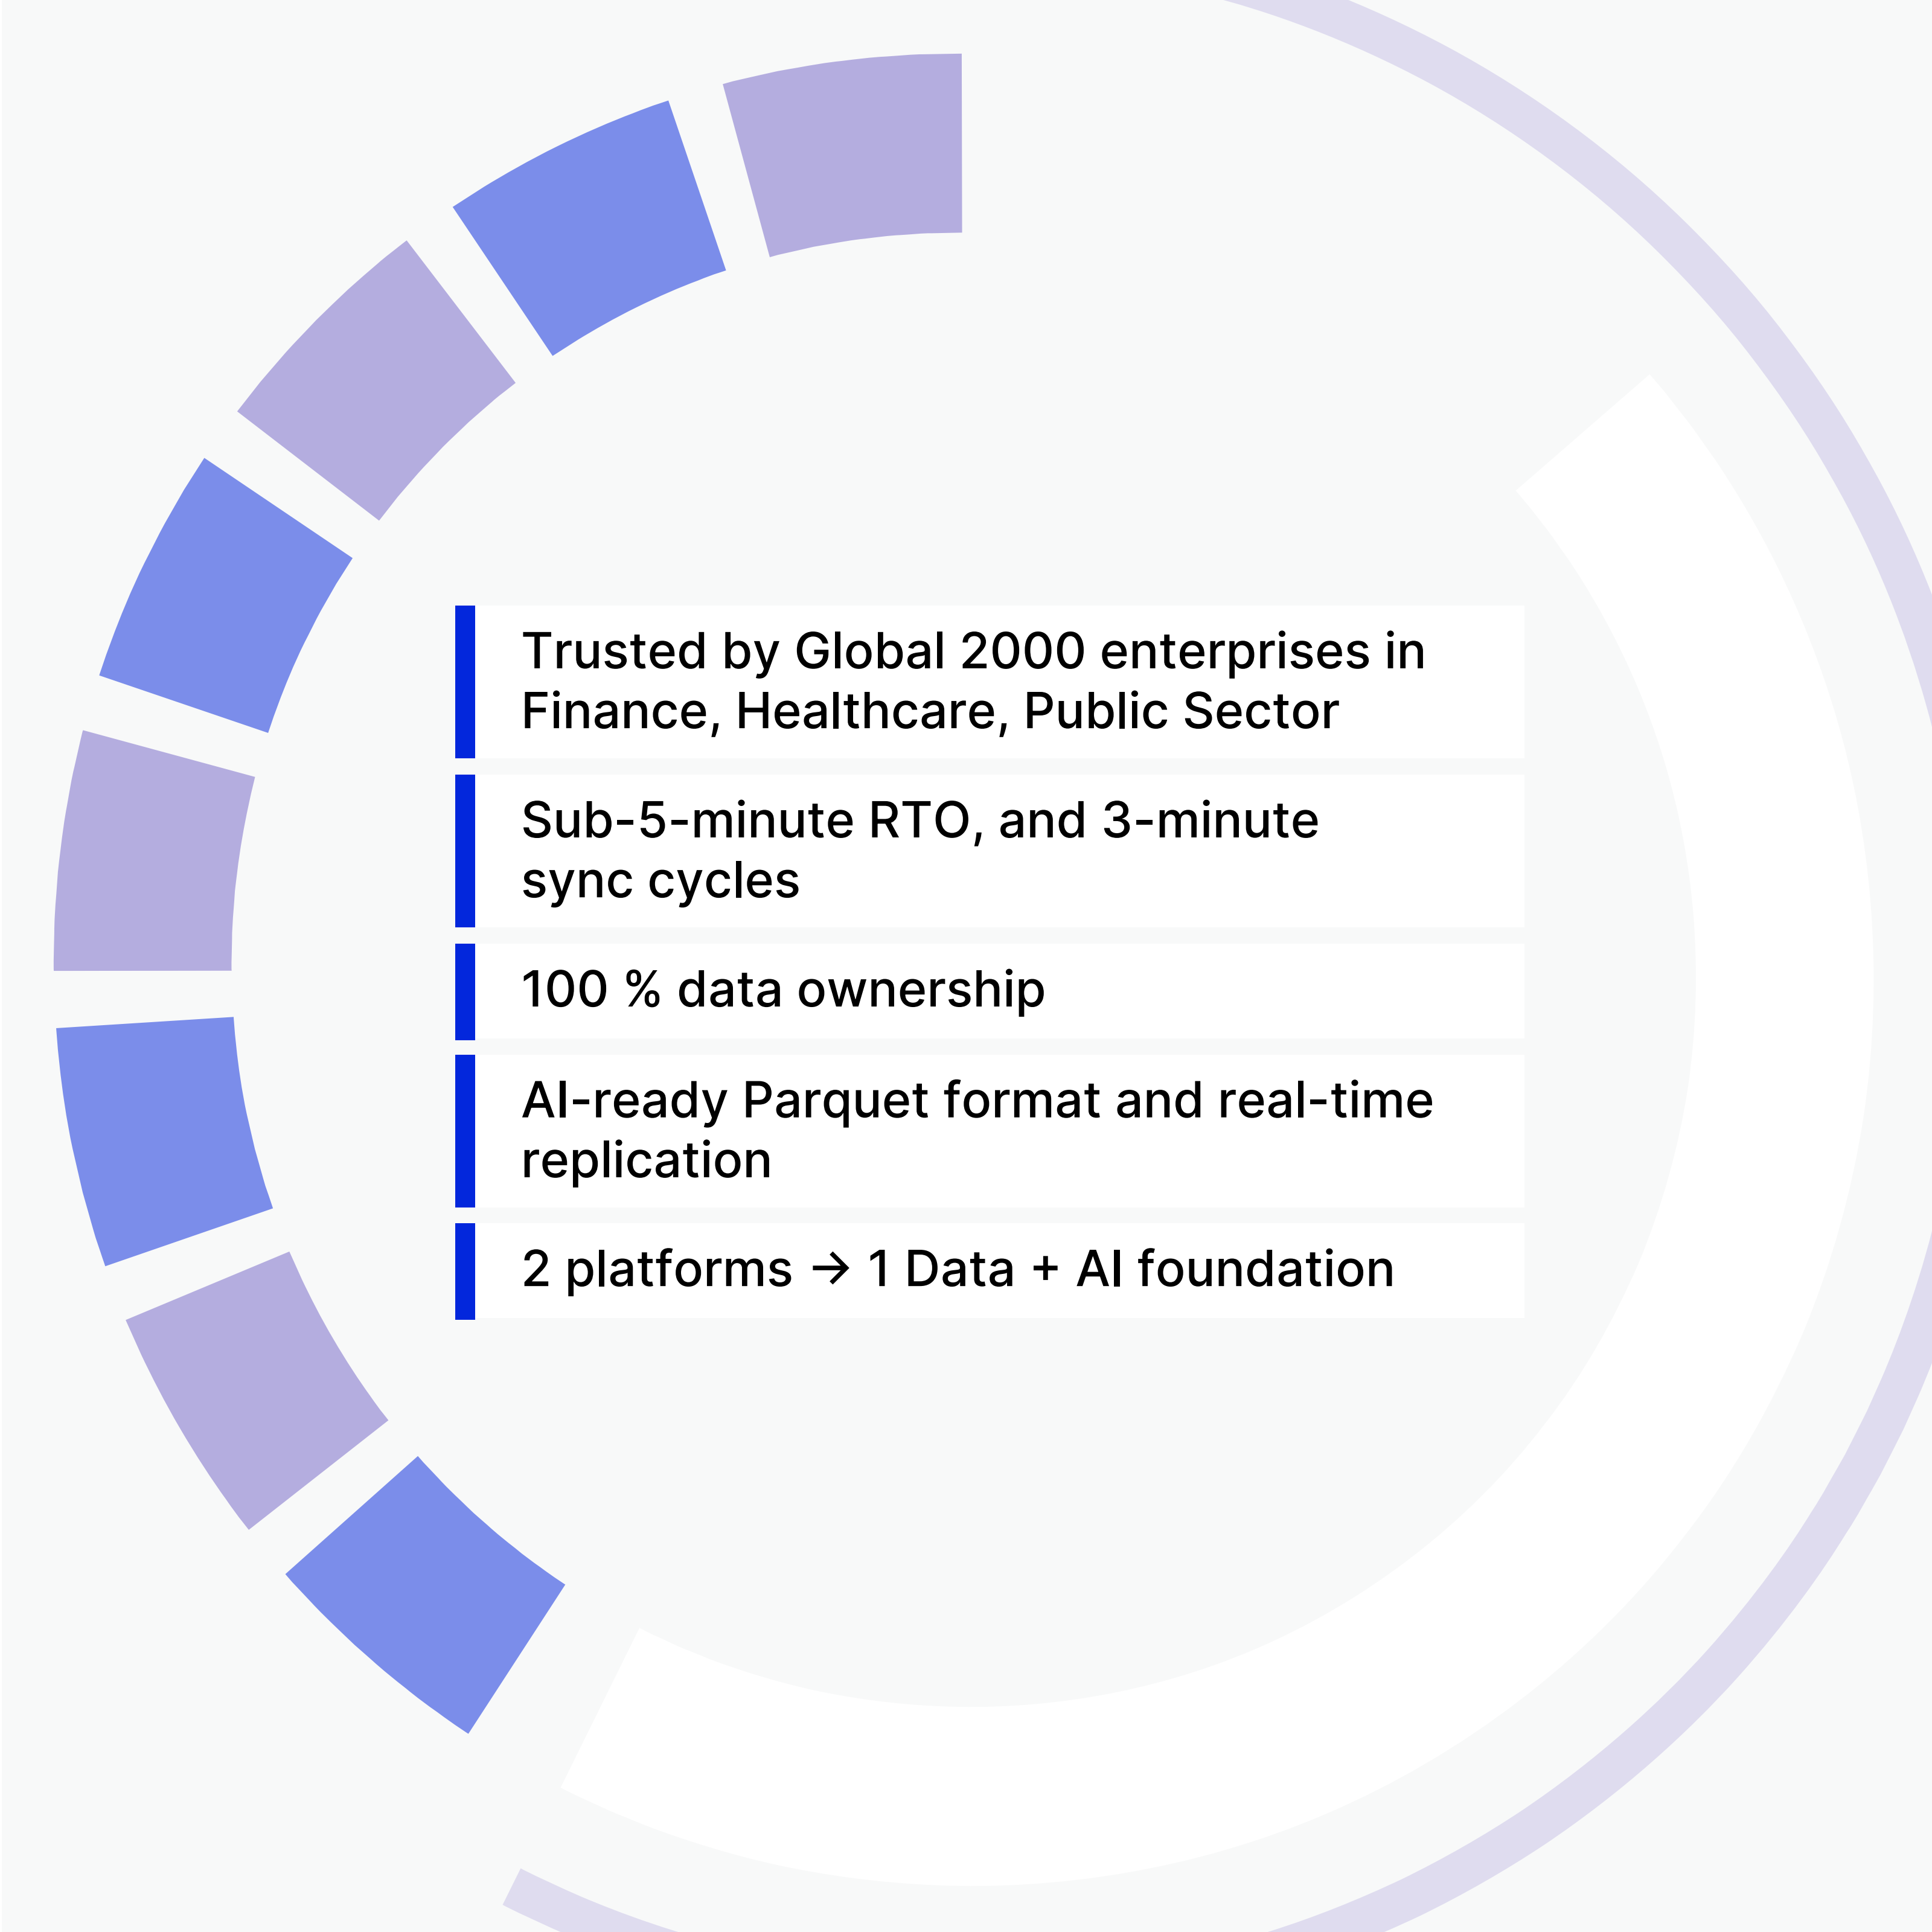

Why GRAX + CapStorm Makes Sense

Together, we give enterprises complete ownership and control of their Salesforce data - while unlocking new possibilities for AI, analytics, and compliance.

Under Ascendx, we're combining CapStorm's self-hosted resilience and data pipelines; and GRAX's governance and activation intelligence.

Trusted by Global 2000 enterprises in
Finance, Healthcare, Public Sector

Sub-5-minute RTO, and 3-minute
sync cycles

100 % data ownership

AI-ready Parquet format and real-time
replication

2 platforms → 1 Data + AI foundation

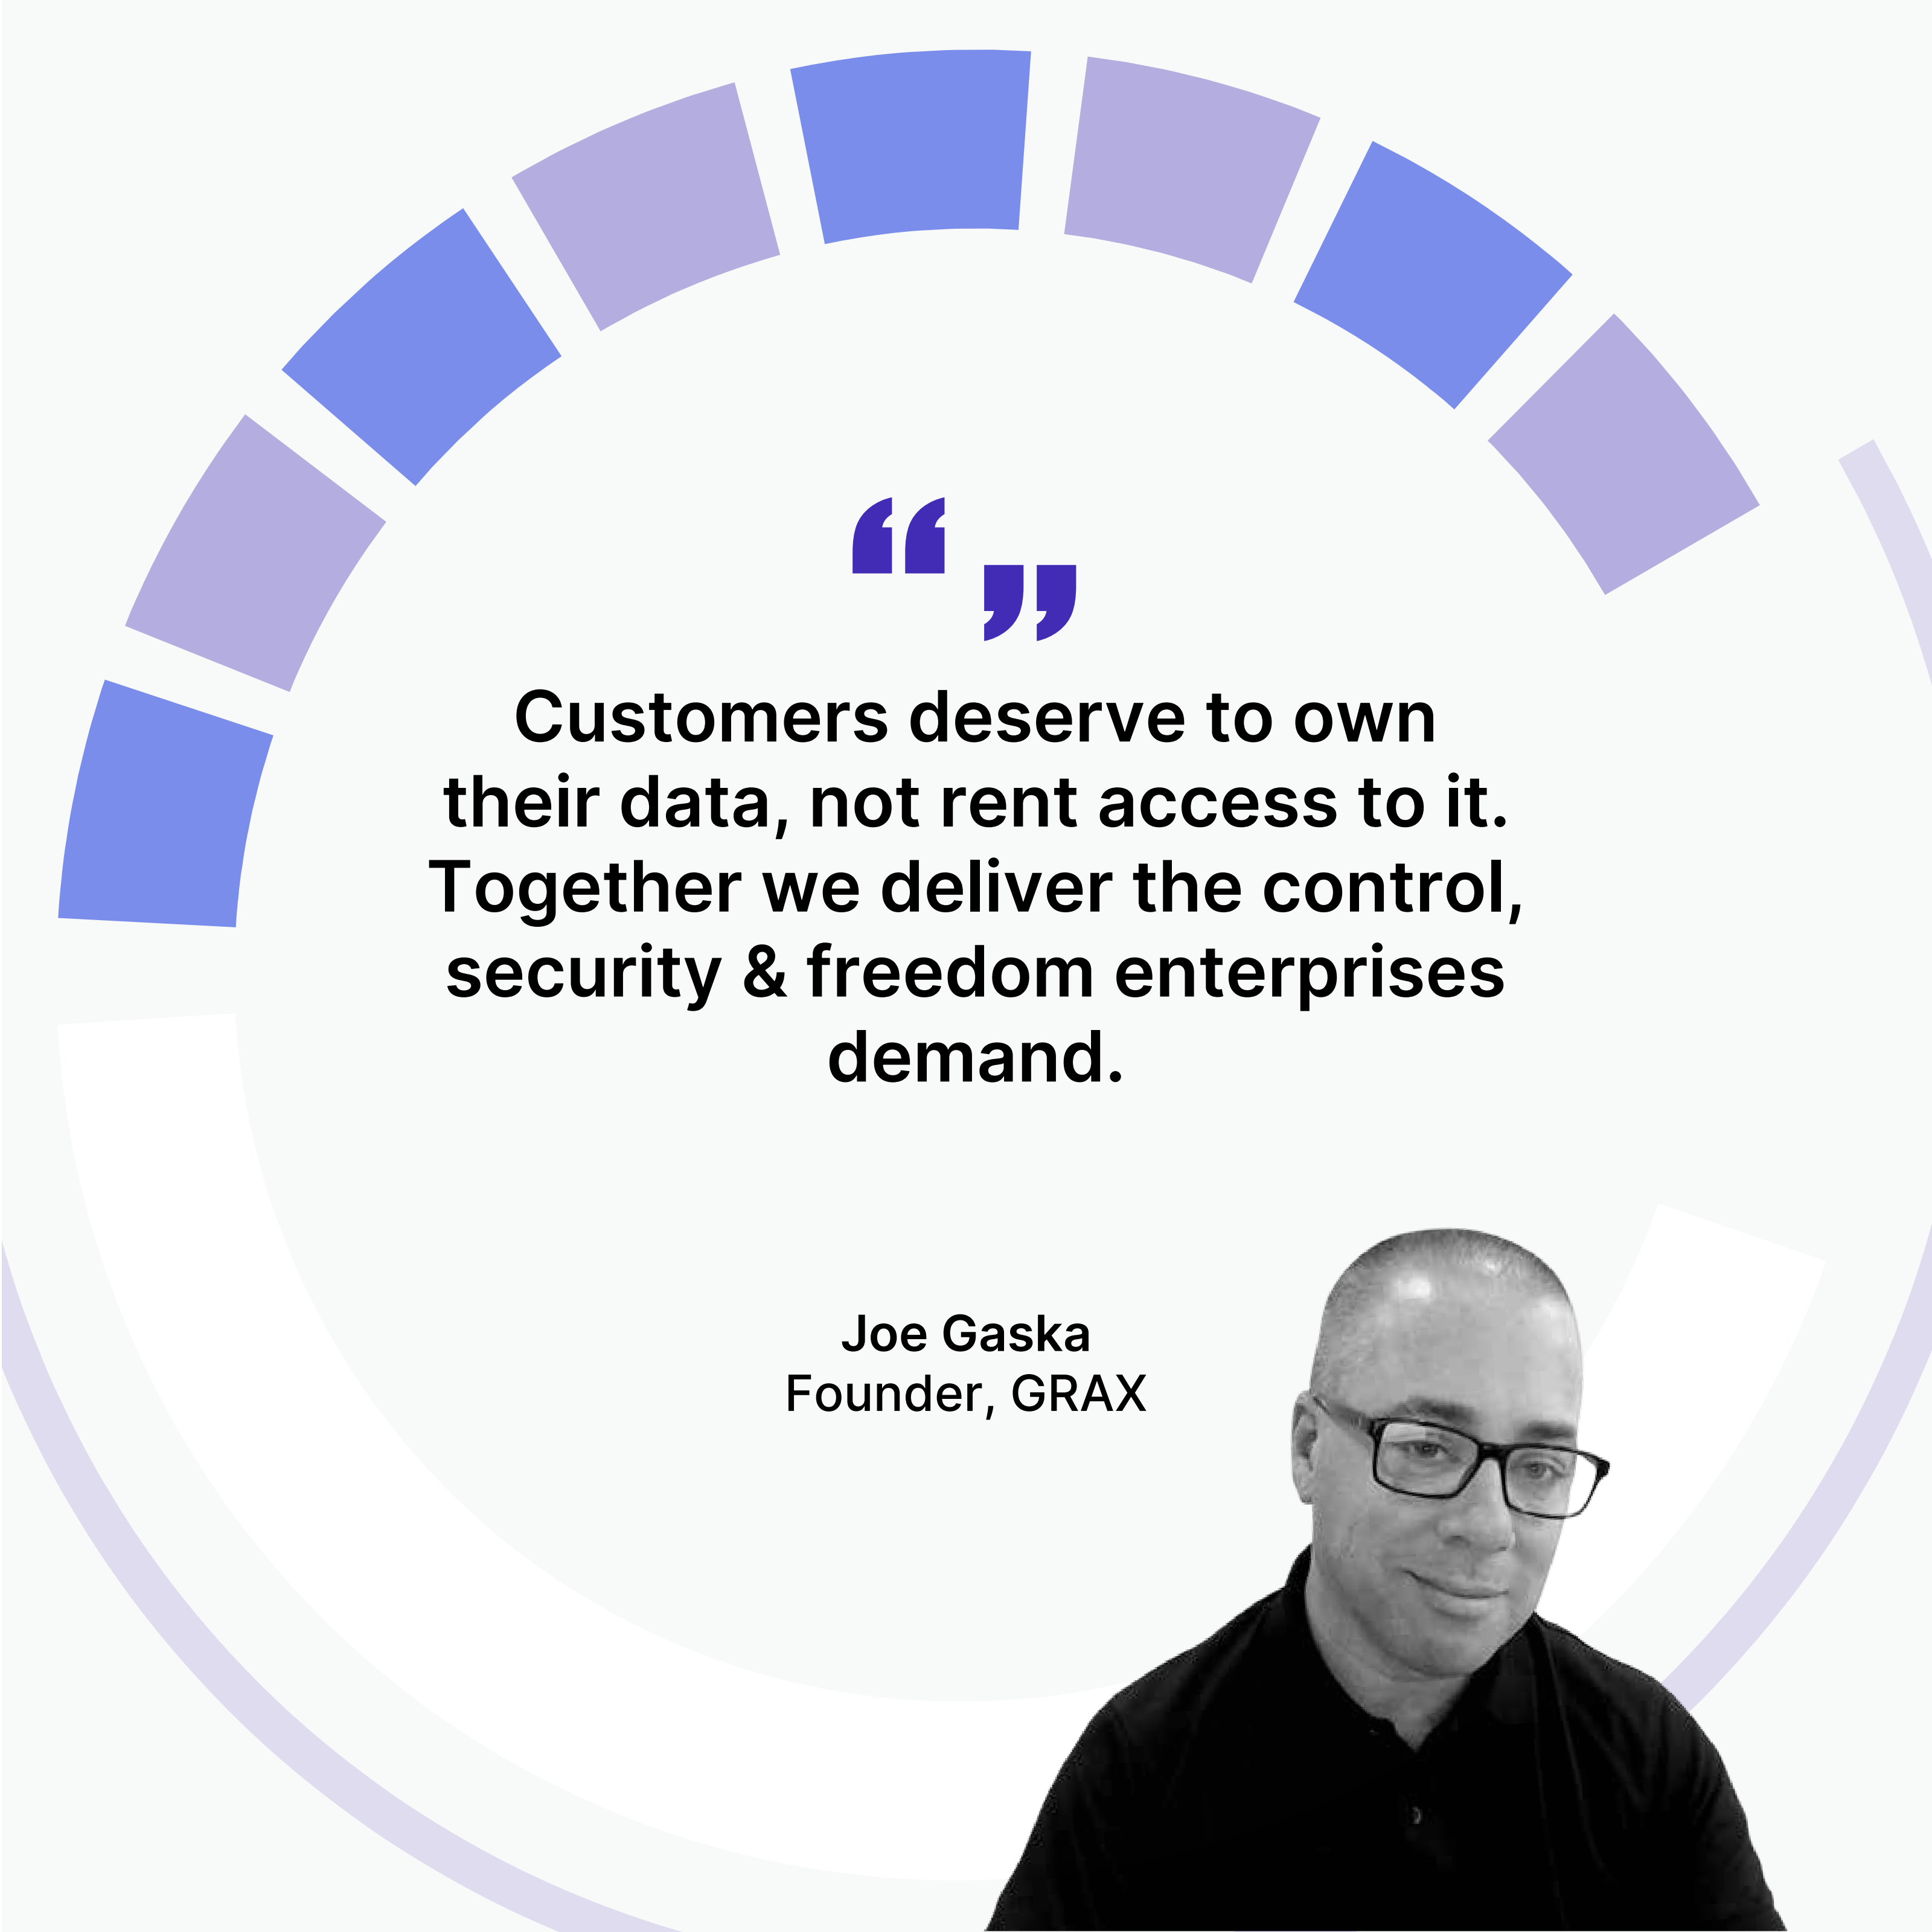

“ ”

**The thesis of this merger
is simple: an end-to-end
Salesforce data lifecycle -
from backup to AI - with full
data independence.**

Ted Pappas
CEO, CapStorm

“ ”

**Customers deserve to own
their data, not rent access to it.
Together we deliver the control,
security & freedom enterprises
demand.**

Joe Gaska
Founder, GRAX
