

Brosix – Secure Team Messaging Made Simple

All-in-one messaging platform designed to help your team communicate effectively, stay focused, and keep data safe.

Why Teams Choose Brosix

- **Private Messaging Platform** - Full control over who communicates – no external contacts.
- **Total Admin Control** - Manage users, features, and security settings from a web console.
- **Cross-Platform Support** - Windows, macOS, Linux, iOS, Android.
- **Built-in Security** - End-to-end 256-bit encryption for all messages and files.

Key Features

- Real-time Chat (1-on-1 & group)
- Video & Audio Calls
- Screen Sharing & Remote Desktop
- File Transfer & Screenshot Sharing
- Message Edit, Delete, Labels, Replies & Mentions

Benefits for Your Team

- **Boost productivity** by keeping all communications in one place
- **Enhance focus** – eliminate outside distractions
- **Reduce IT overhead** – no server setup or maintenance needed
- **Increase data security** across your organization

"Our favorite aspect is having full administrative control of the network."

David Farache, Fortune3 Inc.
