

Calotren® Ingredient & Safety Fact Sheet

Manufacturer: Top of the World Distributors

Product Type: Collagen-based dietary supplement for healthy metabolism and lean muscle support

Primary Ingredients:

Ingredient	Function
Collagen Hydrolysate (Bovine)	Supports lean muscle, metabolism, and tissue repair
Aloe Vera Extract	Aids digestion and nutrient absorption
Vegetable Enzyme Complex (ProHydrolase™)	Enhances collagen absorption and bioavailability
Gelatin Capsule	Delivers active ingredients safely and effectively

Key Product Attributes:

- 100% Stimulant-Free
- 100% Drug-Free
- No Caffeine, No Ephedra, No Thermogenic Agents
- Safe for Use with Most Medications
- No Known Side Effects

Mechanism of Action:

Calotren® supports lean muscle maintenance and metabolic efficiency through collagen protein utilization during rest and recovery, helping the body burn fat naturally without stimulant activation.

Safety Statement:

No known adverse effects. Not a thermogenic or stimulant-based product. Individuals sensitive to protein or aloe may experience mild digestive discomfort. Always consult a healthcare provider if you are pregnant, nursing, or managing a medical condition.

Manufacturing & Quality Assurance:

Calotren® is produced in FDA-inspected facilities following Good Manufacturing Practices (GMP) and purity-tested for ingredient integrity and safety.

Disclaimer:

These statements have not been evaluated by the FDA. Calotren® is not intended to diagnose, treat, cure, or prevent any disease.
