Founded in 2015 amid the rise of live streaming and gaming, Narvitech focuses on multimedia streaming products and solutions.

2023

2015

Company Structure

R&D Team

Experienced 20+ years of expertise in video chip design, driving innovation across the AV industry.

In-House FAE Team

Dedicated in-house FAEs delivering fast, responsive, and precise technical support.

Diverse Sales & Marketing Team

A globally minded S&M team leading world-wide market engagement and customer success.

Stream Like a Dream

Established in 2015, Narvitech is dedicated to providing consumers with high-quality multimedia streaming and video capture experiences. As the live streaming and gaming markets have evolved, Narvitech has developed multimedia streaming products and solutions. We are committed to offering a professional and premium multimedia product portfolio, creating an ideal platform for creative audio-visual content.

Smart Systems for Intelligent Collaboration

In 2023, eMPIA launched its own brand, AVA, focusing on providing intelligent and professional solutions for the education and business markets. AVA offers interactive collaboration system solutions that enhance the use of devices such as iPad, smartphones, laptops, and video conferencing equipment, including auto-tracking cameras and conference-specific speakerphones.

In educational environments, AVA helps teachers and students improve efficiency and effectiveness in computer labs, future classrooms, or standard classrooms. In business environments, AVA provides meeting participants and collaborators with an exceptional and more efficient meeting experience, ultimately enhancing corporate productivity and competitive advantage.

Products

OnCollab Series

World's premier wireless collaboration system. Complete with omnicast, MTR seamless switch, and dual screen collaboration.

IllumiNet Series

A next-generation multi-screen wireless control and collaboration system, built for training rooms and control rooms.

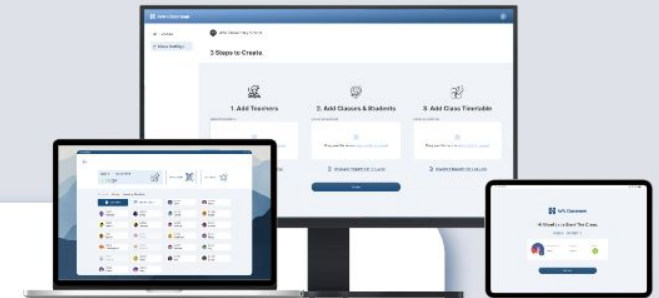

AVA Software Licensing

Feature-rich wireless collaboration app that can be installed on IFPDs.

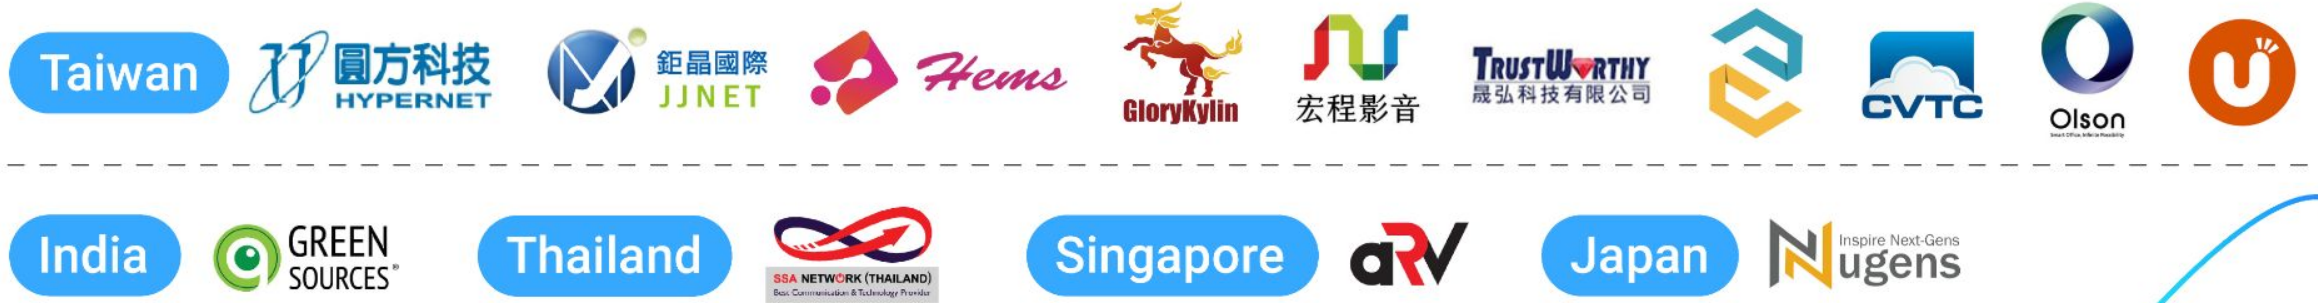

AVA Classroom

A digital interactive teaching software platform that is both feature-rich, and adapts to the teacher.

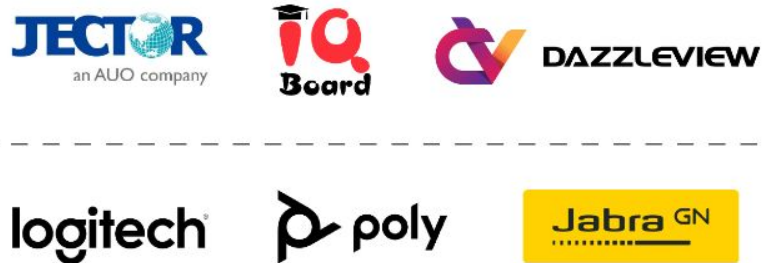

Present and Future in APAC Region

- Already available in **5 APAC regions**.

- Global Collaboration with Leading Brands

2026

OnCollab Roadmap

Q1

New Feature

- Dual Screen Collaboration for OnCollab with Gesture Control

Q2

New Product

- OnCollab Castmate 4K

Q2

New Product

- OnCollab AirX 4K

Q3

New Product

- Campus Broadcasting System

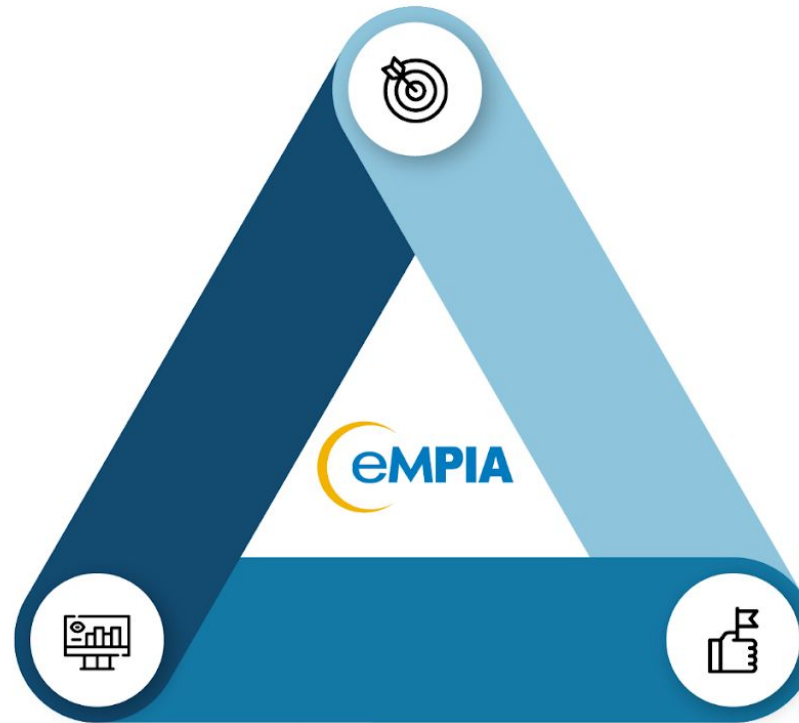

Vision

eMPIA Technology Corp. is dedicated to the professional design of audio-visual chips. With the continuous development of highly specialized capabilities, we have established our own brands to provide high-quality, customer-oriented services.

Mission

The company is dedicated to the professional design of audio-visual chips.
