

HOW DID YOU SCORE?

Congratulations, you have completed ONE Score! Now, for the results ...

30 – 35 points:

Good news; your dog is in great condition. There may be some small areas for improvement so, focus on the categories you scored lowest.

21 – 29 points:

Your dog is in fair health. There are still areas that can be improved. Book an appointment with your veterinarian to discuss how to improve.

20 points or less, 1 or 2 in any category*:

Follow-up with your veterinarian right away. There are likely many areas of your dog's health that need to be analyzed.

*If you scored 1 or 2 in any category, regardless of your total score, please consult a veterinarian.

Remember; nothing beats regular veterinarian visits and a healthy diet.

Purina ONE SmartBlend of ingredients is a great option for your dog - it means complete and balanced nutrition that can support your dog's wellbeing at each life stage and real meat is always the #1 ingredient.

WHAT IS ONE SCORE?

Purina ONE wants to help monitor your dog's health with confidence and accuracy.

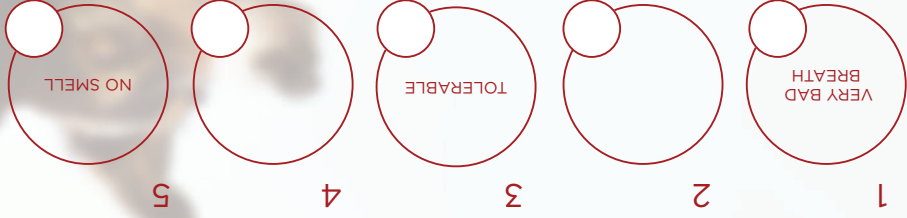

Working with an animal nutritionist and practicing veterinarian, **Purina ONE** developed a scoring system, ONE Score, that ranks your dog's wellbeing based on seven signs of health.

HOW TO COMPLETE ONE SCORE:

1. Rank your dog's health on ONE Score's 5-point scale for each health category
2. Tally up each category's points, for a total score out of 35
3. Compare your total points to ONE Score's health rating summary
