1. GENERAL INFORMATION

Boyd Group Income Fund (the "Fund" or "BGIF") is an unincorporated, open-ended mutual fund trust established under the laws of the Province of Manitoba, Canada on December 16, 2002. It was established for the purposes of acquiring and holding a majority interest in The Boyd Group Inc. (the "Company"). The Company is partially owned by Boyd Group Holdings Inc. ("BGHI"), which is controlled by the Fund. These financial statements reflect the activities of the Fund, the Company and all its subsidiaries including BGHI.

The Company's business consists of the ownership and operation of autobody/autoglass repair facilities and related services. At the reporting date, the Company operated locations in five Canadian provinces under the trade name Boyd Autobody & Glass and Assured Automotive, as well as in 22 U.S. states under the trade name Gerber Collision & Glass. The Company uses newly acquired brand names during a transition period until acquired locations have been rebranded. The Company is also a major retail auto glass operator in the U.S. with locations across 34 U.S. states under the trade names Gerber Collision & Glass, Glass America, Auto Glass Service, Auto Glass Authority and Autoglassonly.com. The Company also operates Gerber National Claim Services ("GNCS"), which offers glass, emergency roadside and first notice of loss services with approximately 5,500 glass provider locations and 4,600 Emergency Roadside Services provider locations throughout the U.S.

The units of the Fund are listed on the Toronto Stock Exchange and trade under the symbol "BYD.UN". The head office and principal address of the Fund are located at 3570 Portage Avenue, Winnipeg, Manitoba, Canada, R3K 0Z8.

The policies applied in these interim condensed consolidated financial statements are based on International Financial Reporting Standards ("IFRS") issued and outstanding as of August 9, 2018, the date the Board of Trustees approved the statements. Any subsequent changes to IFRS that are given effect in the Fund's annual consolidated financial statements for the year ending December 31, 2018 could result in restatement of these interim condensed consolidated financial statements.

2. BASIS OF PRESENTATION

These interim condensed consolidated financial statements for the three and six months ended June 30, 2018 have been prepared in accordance with IAS 34, *Interim financial reporting* using the same accounting policies and methods of computation followed in the consolidated financial statements for the year ended December 31, 2017, except for the adoption of new standards as set out below. The interim condensed consolidated financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2017, which have been prepared in accordance with IFRS.

A number of new or amended standards became applicable for the current reporting period and the Fund had to change its accounting policies as a result of adopting the following standards:

- IFRS 9 *Financial Instruments*, and
- IFRS 15 *Revenue from Contracts with Customers.*

The impact of the adoption of these standards and the new accounting policies are disclosed in notes 3 and 12.

The Fund has also adopted the narrow-scope amendments to IFRS 2, *Share-based Payment* on January 1, 2018. The adoption of IFRS 2 did not have a material impact on the Fund's consolidated financial statements.

3. CHANGES IN ACCOUNTING POLICIES

a) Revenue recognition

The Fund has adopted IFRS 15 *Revenue from Contracts with Customers* on January 1, 2018 using the modified retrospective approach, which recognizes the cumulative effect of initial application as an adjustment to the opening balance of retained earnings (deficit) at January 1, 2018 without restatement of comparatives. Beginning January 1, 2018, the Fund recognizes revenue upon completion and delivery of the repair to the customer, which has been determined to be the performance obligation that is distinct and the point at which control of the asset passes to the customer. Revenue is measured at the fair value of the consideration received. Previously, revenue was recognized to the extent that it was probable that the economic benefits would flow to the Fund, the sales price was fixed or determinable and collectability was reasonably assured. As a result, revenue that met the revenue recognition criteria under the prevailing IAS 18 was recognized in the year ended December 31, 2017. The same revenue; however, would not have met the recognition criteria under IFRS 15. As such, the impact on the consolidated financial statements as at January 1, 2018 is a decrease to opening retained earnings (deficit) of $6,731.

b) Financial instruments

The Fund has adopted IFRS 9 *Financial Instruments* on January 1, 2018 using the modified retrospective approach. IFRS 9 includes a logical model for classification and measurement, a single, forward-looking expected loss impairment model and a substantially-reformed approach to hedge accounting. The adoption of IFRS 9 has resulted in changes to the classification of the Fund's financial assets but has not changed the classification of the Fund's financial liabilities. The carrying values of the Fund's financial instruments were not impacted by the adoption of IFRS 9.

All financial assets previously classified as loans and receivables are now classified as amortized cost. All financial liabilities previously classified as other financial liabilities are now classified as amortized cost. There were no changes to the category of financial liabilities classified as fair value through profit or loss ("FVPL").

At the date of adoption, the application of IFRS 9 had no material impact on the Fund's consolidated financial statements.

<u>Recognition</u>
Financial assets and liabilities are recognized when the Fund becomes a party to the contractual provisions of the instrument.

<u>Classification</u>
Effective January 1, 2018, the Fund classifies its financial assets and liabilities in the following categories depending on the Fund's business model for managing the financial assets and the contractual terms of the cash flows:

- Those to be measured subsequently at fair value, either through profit or loss or through OCI, and
- Those to be measured at amortized cost.

Cash and accounts receivable are classified as amortized cost. After their initial fair value measurement, they are measured at amortized cost using the effective interest method, as reduced by appropriate allowances for estimated lifetime expected credit losses.

Accounts payable and accrued liabilities, dividends and distributions payable, and long-term debt are classified as amortized cost and are net of any related financing fees or issue costs. After their initial fair value measurement, they are measured at amortized cost using the effective interest method.

Derivative contracts including the non-controlling interest put option and call liability are classified as financial assets or financial liabilities at FVPL with mark-to-market adjustments being recorded to net earnings at each period end.

As a result of the Fund's units being redeemable for cash, the exchangeable Class A shares of the Fund's subsidiary BGHI, are presented as financial liabilities and classified as financial assets or financial liabilities at FVPL. Exchangeable Class A shares are measured at the market price of the units of Fund as of the statement of financial position date.

<u>Measurement</u>
At initial recognition, the Fund measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

For those financial instruments where fair value is recognized in the Consolidated Statement of Financial Position the methods and assumptions used to develop fair value measurements have been classified into one of the three levels of the fair value hierarchy for financial instruments:

- Level 1 includes quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 includes inputs that are observable other than quoted prices included in Level 1
- Level 3 includes inputs that are not based on observable market data

<u>Impairment</u>
IFRS 9 replaces the incurred loss model under IAS 39 with an expected credit loss model. Expected credit losses are to be recognized at all times in a forward looking approach that reflects changes in credit risk of the financial instrument. The expected losses are recognized and measured according to one of three approaches: a general approach, a simplified approach, or a credit adjusted approach. For accounts receivable that do not contain a significant financing component, it is mandatory to use the simplified approach. Under the simplified approach, the measurement basis for the allowance is the lifetime expected credit losses.

4. ACCOUNTING STANDARDS AND AMENDMENTS ISSUED BUT NOT YET ADOPTED

The following is an overview of accounting standard changes that the Fund will be required to adopt in future years:

IFRS 16, *Leases*, was issued by the IASB on January 13, 2016 and will replace the current guidance found in IAS 17, *Leases* and related interpretations. The new standard will bring most leases onto the statement of financial position through recognition of related assets and liabilities. IFRS 16 establishes principles for recognition, measurement, presentation and disclosure of leases. The new standard will come into effect on January 1, 2019 with early application permitted if IFRS 15, *Revenue from Contracts with Customers* has also been applied. The Fund is currently evaluating the impact of adopting IFRS 16 on its financial statements, but expects this standard will have a significant impact on its consolidated statement of financial position, along with a change to the recognition, measurement and presentation of lease expenses in the consolidated statement of earnings.

(thousands of Canadian dollars, except unit, share and per unit/share amounts)

5. ACQUISITIONS

The Fund completed 10 acquisitions that added 19 locations during the six months ended June 30, 2018 as follows:

Acquisition Date	Location
January 19, 2018	Collier County, FL (2 locations)
January 31, 2018	Sudbury, ON (4 locations)
February 20, 2018	Falcon, CO
February 23, 2018	Dallas, TX (3 locations)
April 17, 2018	Seattle, WA (3 locations)
May 18, 2018	Alexandria, LA
May 25, 2018	Atlanta, GA (2 locations)
May 28, 2018	Bradford, ON
June 8, 2018	Chicago, IL
June 27, 2018	Elk Grove Village, IL

The Fund has accounted for the acquisitions using the acquisition method as follows:

Acquisitions in 2018	Total acquisitions
Identifiable net assets acquired at fair value:	
Cash	$ 416
Other currents assets	1,995
Property, plant and equipment	7,441
Identified intangible assets	
Customer relationships	9,850
Non-compete agreements	420
Liabilities assumed	(1,499)
Deferred income tax liability	(595)
Identifiable net assets acquired	$ 18,028
Goodwill	13,882
Total purchase consideration	$ 31,910
Consideration provided	
Cash paid or payable	$ 28,727
Sellers notes	3,183
Total consideration provided	$ 31,910

The preliminary purchase prices for the 2018 acquisitions as disclosed above may be revised as additional information becomes available. Further adjustments may be recorded in future periods as purchase price adjustments are finalized.

U.S. acquisition transactions are initially recognized in Canadian dollars at the rates of exchange in effect on the transaction dates. Subsequently, the assets and liabilities are translated at the rate in effect at the Statement of Financial Position date.

(thousands of Canadian dollars, except unit, share and per unit/share amounts)

A significant part of the goodwill recorded on the acquisitions can be attributed to the assembled workforce and the operating know-how of key personnel. However, no intangible assets qualified for separate recognition in this respect.

Goodwill recognized during 2018 is expected to be deductible for tax purposes, except for the goodwill related to the January 31, 2018 acquisition in Sudbury. Goodwill recognized on this transaction totalled $2,658.

The purchase price allocation adjustments represent additional consideration which resulted in the recognition of additional goodwill as well as balance sheet reclassifications between property, plant and equipment and goodwill within the measurement period for certain 2017 acquisitions.

(thousands of Canadian dollars, except unit, share and per unit/share amounts)

9. DISTRIBUTIONS AND DIVIDENDS

The Fund's Trustees have discretion in declaring distributions. The Fund's distribution policy is to make distributions of its available cash from operations taking into account current and future performance amounts necessary for principal and interest payments on debt obligations, amounts required for maintenance capital expenditures and amounts allocated to reserves.

Distributions to unitholders and dividends on the exchangeable Class A shares were declared and paid as follows:

Record date	Payment date	Distribution per Unit / Dividend per Share	Distribution amount	Dividend amount
January 31, 2018	February 26, 2018	$ 0.0440	$ 865	$ 10

(1) Fair Value Through Profit or Loss

For the Fund's current financial assets and liabilities, including accounts receivable, accounts payable and accrued liabilities, and distributions and dividends payable, which are short term in nature and subject to normal trade terms, the carrying values approximate their fair value. As there is no ready secondary market for the Fund's long-term debt, the fair value has been estimated using the discounted cash flow method. The fair value using the discounted cash flow method is approximately equal to carrying value. The fair value for the non-controlling interest put option and call liability is based on the estimated cash payment or receipt necessary to settle the contract at the Statement of Financial Position date. Cash payments or receipts are based on discounted cash flows using current market rates and prices and adjusted for credit risk. The fair value of the exchangeable Class A shares is estimated using the market price of the units of Fund as of the Statement of Financial Position date.

(thousands of Canadian dollars, except unit, share and per unit/share amounts)

Collateral

The Company's syndicated loan facility is collateralized by a General Security Agreement. The carrying amount of the financial assets pledged as collateral for this facility at June 30, 2018 was approximately $170,500 (December 31, 2017 - $152,376).

Non-controlling interest put option and call liability

On May 31, 2013, the Fund entered into a contribution agreement whereby Glass America Inc. contributed its auto-glass business to Gerber Glass in exchange for membership representing a 30% ownership interest in a new combined Glass America LLC. The GA Company Agreement contains a put option as well as a call option, which provide the non-controlling interest with the right to require Gerber Glass to purchase their retained interest and Gerber Glass with the right to require the non-controlling interest to sell their retained interest respectively, according to a valuation formula defined in the GA Company Agreement. On September 29, 2017, Gerber Glass exercised its call option to acquire the 30% interest in the Glass America entity. All changes in the estimated liability are recorded in earnings.

On May 31, 2013, in connection with the acquisition of Glass America, the Fund amended and restated the limited liability company agreement of Gerber Glass LLC (the "Gerber Glass Company Agreement") which provides a member of its U.S. management team the opportunity to participate in the future growth of the Fund's U.S. glass business. Within the agreement was a put option held by the non-controlling member that provided the member an option to put the business back to the Fund according to a valuation formula defined in the agreement. On October 31, 2016, the Fund amended the Gerber Glass Company Agreement. The put option held by the non-controlling member continues to provide the member an option to put the business back to the Fund according to a valuation formula defined in the Gerber Glass Company Agreement; however, the put option is not exercisable until December 31, 2018 and is exercisable anytime thereafter by the glass-business operating member. The put option may be exercised before December 31, 2018 upon the occurrence of certain unusual events such as a change of control or resignation of the operating member. All fair value changes in the estimated liability are recorded in earnings.

The liability recognized in connection with both the put option and the call have been calculated using formulas defined in the applicable limited liability company agreements. The formula for the Glass America call is based on a multiple of EBITDA for the trailing twelve months ended August 31, 2017. The formula for the U.S. management team member put option is based on multiples of estimated future earnings of the Glass America business and estimated future exercise dates. The estimated future payment obligation is then discounted to its present value at each statement of financial position date. The significant unobservable inputs include the put being exercised in six months at a probability weighted estimated EBITDA level as at December 31, 2018 of approximately $7,500 USD using a discount rate of 8%. An increase in the EBITDA level or a reduction in the discount rate would increase the put liability.

During the first six months of 2018, the Fund made $nil (2017 - $140) in payments to the Glass America non-controlling interest.

The liability for non-controlling interest put options comprises the following:

As at		**June 30, 2018**		December 31, 2017
Glass-business operating partner non-controlling interest put option	**$**	**8,539**	$	7,075
Glass America non-controlling interest call liability		**14,870**		14,167
	$	**23,409**	$	21,242

(thousands of Canadian dollars, except unit, share and per unit/share amounts)

The change in the non-controlling interest put option and call liabilities is summarized as follows:

	June 30, 2018		December 31, 2017	
	Glass-business operating partner	**Glass America non-controlling interest**	Glass-business operating partner	Glass America non-controlling interest
Balance, beginning of year	**$ 7,075**	**$ 14,167**	$ 7,998	$ 21,204

Balance, end of period	**$ 8,539**	**$ 14,870**	$ 7,075	$ 14,167

During the first six months of 2018, a fair value adjustment expense in the amount of $1,107 (2017 – recovery of $3,082) was recorded to earnings related to the non-controlling interest put option and call liability.

The exercise price for the call option regarding the Glass America non-controlling interest has been calculated in accordance with the terms of the GA Company Agreement. The Glass America non-controlling interest member has not agreed on the calculation of the exercise price, including certain material changes, and the matter has been submitted to binding arbitration in accordance with the terms of the GA Company Agreement. A reasonable estimate of the financial effect of these material changes and the timing of settlement of the call liability cannot be made at this time. As at August 9, 2018, the acquisition of the non-controlling interest in Glass America has not been completed.

13. UNIT BASED PAYMENT OBLIGATION

Pursuant to the Fund's Option Agreement and Confirmation, the Fund has granted options to purchase units of the Fund to certain key executives. The following options are outstanding:

Issue Date	**Number of Units**	**Exercise Price**	**Expiry Date**	**June 30, 2018 Fair Value**	December 31, 2017 Fair Value
January 2, 2008	150,000	$ 2.70	January 2, 2018	**$ -**	$ 14,729
January 2, 2009	150,000	$ 3.14	January 2, 2019	**16,534**	13,465
January 2, 2010	150,000	$ 5.41	January 2, 2020	**14,782**	11,991
				$ 31,316	$ 40,185

On January 2, 2018, the Fund completed the settlement of the unit options issued on January 2, 2008. As a result of the settlement, 150,000 units were issued at an exercise price of $2.70. The fair value of the unit options at settlement was $14,729.

The fair value of each outstanding option is estimated using a Black-Scholes valuation model with the following assumptions used for the outstanding options granted: stock price $117.21, dividend yield 0.56% and expected volatility 21.29% (determined as a weighted standard deviation of the unit price over the past four years). The risk free interest rate assumptions used in the valuation model are as follows: January 2, 2008 issuance - N/A, January 2, 2009 issuance – 1.27%, January 2, 2010 issuance – 1.81%.

During the first six months of 2018, a fair value adjustment expense in the amount of $5,860 (2017 – $5,989) was recorded to earnings related to these unit based payment obligations.

14. SEASONALITY

The Fund's financial results for any individual quarter are not necessarily indicative of results to be expected for the full year. Interim period revenues and earnings are typically sensitive to regional and local weather, market conditions, and in particular, to cyclical variations in economic activity.

15. SEGMENTED REPORTING

The Fund has one reportable line of business, being automotive collision repair and related services, with all revenues relating to a group of similar services. In this circumstance, IFRS requires the Fund to provide geographical disclosure. For the periods reported, all of the Fund's revenues were derived within Canada or the United States of America. Reportable assets include property, plant and equipment, goodwill and intangible assets which are all located within these two geographic areas.
