

CenturyLink Brings Direct Cloud Connectivity to AWS re:Invent

For the fifth year in a row, CenturyLink is powering connectivity at AWS re:Invent. All keynotes, live streams, breakout sessions, hands-on labs, bootcamps, hackathons, workshops, certification exams and more will be delivered by CenturyLink® Cloud Connect Solutions.

Connectivity you can count on.

~85,000

devices connecting at
the conference

50,000+

viewers tuning into
live-streamed keynote
addresses

2,000+

Supported sessions

CenturyLink connects re:Invent attendees, staff and viewers with:

8 venues

interconnected across
the re:Invent campus

180Gbps

of bandwidth

80%

increase in the capacity
required for re:Invent 2017

Strength in the Network = Strength in the Cloud

With so much of today's data being stored in the cloud, how you connect matters. Accelerate your digital business with optimized cloud connectivity. Move faster, scale easier and operate more cost-effectively.
